Database	SQL Server, SQL Server Profiler, SSIS, SSRS.
Cloud	AWS, Azure
Tools	TFS, GitHub, SonarQube, ZAP, Snyk, Docker, ETL.
IDE	Visual Studio 2022 / 2019 / 2013, Visual Studio Code, Notepad++

Projects

LTIMindtree   *Sep 2023 – Till date*
Senior specialist – Software Engineering

Project	Platts connect	Duration: Sep 2023 – Till Date
Description	Platts Connect is a web-based application that provides energy and commodity market data, insights, and benchmarks	
Technologies	C#, Net6, Typescript, Micro frontend, Microservice, AWS, ReactJS.	
Responsibility	• Front end & back-end development, code review, code refactoring and optimization. • Designing product strategy & development roadmap. • Solutioning and system designing.	

Acuity Knowledge Partners   *Sep 2021 – Sep 2023*
Senior Software Engineer

Project	BEATTombstoneHub	Duration: Sep,2021 – Till Date
Description	TombstoneHub is a SaaS platform which streamlines and automates the creation of fully formatted tombstones or credential slides for investment bankers.	
Technologies	.Net Core 3, .Net 5, .Net 6, C#, XUnit, SQL Server, ReactJS, Jest, Enzyme, AWS, Microservice.	
Responsibility	• Front end & back-end development. • Unit Testing cases. • Solutioning & Designing for the new requirements. • Creating, maintaining the AWS pipeline & Deployment activity. • Integrating S3 and Secret Manager from AWS. • Integrating different applications. • Active participation in the show and tell with stakeholders of application. • Following agile methodologies, attending client calls and daily stand-up calls, sprint planning, and management. • Team management.	

Miles Software Pvt. Ltd. (Now EbixCash Financial Technologies)   Feb 2016 – Sep 2021
Team Lead

Project	Moneyware - Fundware	Duration: Jan 2019 – Sep,2021
Description	MoneyWare Fundware asset management software allows you to manage and preempt challenges with features that are designed to simplify and mitigate fund management.	
Technologies	.NET 4.5, MVC5, .Net Core 2 Rest API, XUnit, ASP.Net SQL 2012, Bootstrap, MVC Rest API ReactJSS, SSIS, ETL.	
Responsibility	- Front end & back-end development, code review, code refactoring and optimization. - ETL development. - Designing product strategy & development roadmap. - Product Implementation in SIT, UAT and Production environment. - Data migration from old system to Futura. - Integration with third party systems like Finacle and Bloomberg. - Assisted in requirement analysis, High level design, Low level design and database design. - UAT & Production Support. - Team management. - Following agile methodologies.	

Project	T2T Money Ware Integra	Duration: Feb 2016 - Jun,2018
Description	Migrating existing legacy Wealth Management application developed in VB6 to Web application.	
Technologies	.NET Framework 4.5, SQL 2012, Angular Js, Bootstrap, MVC5, MVC Rest API, LINQ.	
Responsibility	- Migrated legacy system (VB6) to latest technologies with Front end in MVC & AngularJS and Back end with .net MVC Rest API. - Designing product strategy & development roadmap. - Assisted in requirement analysis, High level design, Low level design and database design. - Following agile methodologies, attend client initiated daily stand-up calls. - Developed a scalable strategy & planned implementation across technology platforms. - Unit Testing and Production Movement.	

Innova solutions   Sep 2015 - Feb 2016
Senior Software Engineer

Project	Boeing Supply management	Duration: Sep 2015- Feb,2016
Description	Migrating existing legacy application to MVC.	
Technologies	C#, .NET Framework 4.5, SQL 2012, Bootstrap, MVC5, MVC Rest API, LINQ.	
Responsibility	- Application development and database development. - Understanding existing logic and developing the same in new technologies with maximum reusability. - Following agile methodologies, attend client initiated daily stand-up calls. - Unit Testing and Production Movement.	

Winsoft Technologies PVT. LTD.   *Feb 2013 - Aug 2015*
Software Engineer

Project	Insurance Back Office	Duration: Dec 2014 – Aug. 2015
Description	Application is featured to capture data on Life as well as General Insurance, Process the premiums, calculate the commission, brokerage, gain loss and different reconciliations and provide various reports for the RM's.	
Technologies	ASP.NET 3.5, VB.NET, C#, SQL server 2008, Crystal report 9.0.	
Responsibility	- Application development and database development. - Client coordination, UAT and LIVE support. - Developing reports - Unit Testing and Production Movement.	

Project	Smart Mutual Back Office	Duration: Feb 2013 – Aug. 2015
Description	Back-office solution used by Fund Houses for capturing Mutual Fund transactions, calculating brokerage for broker, sub-broker, sub-sub-broker, calculating gain loss, system reconciliation and various reports.	
Technologies	ASP.NET 3.5, VB.NET, SQL server 2008, Crystal report 9.0, Classic ASP	
Responsibility	- Application development and database development. - Client coordination, UAT and LIVE support. - Developing reports - Production Movement.	

Education Background

Degree / Certificate	University / Institute	Year
BSC In Information Technology	Mumbai University	2012
HSC	Maharashtra State Board	2009
SSC	Maharashtra State Board	2007
